

Local 355 Members United for a Strong Pension

An independent network of Local 355 members working together for pension improvements.

Members of Local 355 work hard, and we deserve a good retirement. We were blindsided when our pension accrual rate was cut to zero.

Our local needs a pension Bill of Rights to keep members informed and protect our benefits.

Pension Bill of Rights

- ✓ **The right to a decent pension.** We work hard, and we deserve a decent pension with early retirement.
- ✓ **The right to be informed.** The local should provide regular updates to members about our pension fund, and provide access to plan documents that show how our fund and its investments are doing.
- ✓ **The right to an accrual.** End the pension freeze. We should earn money toward our retirement for every week we work.
- ✓ **The right to have a say.** If cuts are needed, members should have a say about what steps to take to keep our benefits safe.

Sign the Petition & Stand Up for Your Rights

Local 355 members are building a movement to restore our benefits—and you can be a part of the movement.

Sign the petition today.
